## Our journey started in 1938!!

In this year we established our very first herbal remedies store in the historic region of al-Azhar, Cairo (Egypt), managed & pioneered by our dearly beloved father and grandfather al-Hajj GomaaKhedr. His store became the most famous herbal remedies store in al-Azhar. So, al-Hajj Gomaa completed his journey by way of extracting the best oils in Egypt from the plethora of diverse natural herbs growing therein.

And after him we came, embarking upon our journey. And we became ELHAWAG, the first and largest establishment specializing in pressing seeds and extracting 100% natural oils in addition to producing cosmetics, in the whole of Egypt!

So we remained and we grew. More and more... And furthermore, we began exporting more and more from our range of ELHAWAG Natural Produce...

Exporting to many countries around the world.

But our journey with you is not complete...

### About Us:

We, ELHAWAG, are a pioneering, as well as a leading company in the field of manufacturing natural oils in Egypt and the Middle East. We are grateful to possess a wealth of knowledge and experience in regards to the produce we supply. This understanding comprises both knowledge of our manufactured end products, as well as the natural plants and herbs they are derived from.

### Our Mission:

We pride ourselves in selecting the best types of seeds and herbs from different countries around the world. Therefore, we are able offer the best types of natural oils and cosmetics to our national, as well as international customer base.

### Our Vision:

We aspire to becoming from the top ten international corporations trading in the field of natural oils and herbs. As well as reaching a wider global customer base. And likewise, we aim to follow-up on all scientific studies and achievements that are pertinent to our field of trade, in order to consistently offer the best products to our customers. Whilst, also preserving our credibility and the trust of all our valued customers both locally and internationally.
